

ISO 14001:2015-5.2 Environmental Policy

LINDALE BUILDING SERVICES LTD

Environmental Policy Statement

Senior management at Lindale Building Services is committed to providing Building Services in a manner that is beneficial to the environment. All materials will be handled and disposed of in a way that does not damage the environment or cause pollution. Lindale Building Services policy is to contribute to sustainable practices to best extent possible while having regard to our customers, stakeholders, technical ability and economic considerations by allocating the resources necessary to achieve this vision.

In particular we will endeavour to:

- Plan, organise and control our operations that may have an environmental impact
- Comply with all applicable legislation and industry codes of practice
- Promote the use of sustainable materials and methods
- Reduce the use of natural resources and energy
- Control emissions and prevent pollution and nuisance
- Manage the production, re-use, recycling and disposal of waste
- Raise awareness of environmental issues through training
- Encourage staff to practice good environmental housekeeping at home
- Setting objectives and targets and by measuring and communicating performance
- Communicate this policy to all employees, suppliers and subcontractors by ensuring their awareness of the environmental responsibilities and that it is an integral part of their work, with training available where necessary.
- Periodically review this policy and revise it to reflect changes to legislation and work activities.

This policy is given effect through the implementation and continual improvement of a management system that meets the requirements of ISO 14001:2015.

All employees are expected to co-operate and assist in the implementation of this policy. They are provided with the necessary resources, equipment, information, instruction and training to fulfil the requirements of this policy. We will take all practical measures to ensure that potential hazards and risks to the environment are identified and that effective prevent and control steps are implemented.

Policy Objectives

- To maintain an effective Environmental Management System complying with ISO14001:2015
- Continuing to review suppliers in accordance with our Purchasing Procedure
- Review vehicle trackers so we can monitor the driving scores, including unnecessary acceleration and harsh breaking.
- Continue to reduce the amount of paper being used for printing – stop printing single sided unless needed.
